

# Start a Photography Business!

Your phone is a professional camera. Your eye is the real superpower. Turn the way you see the world into a business people will pay for.

**Ages 10 - 14**

Best for: **THE STORYTELLER** entrepreneur type

## You Already Own the Most Powerful Camera Ever Made 📷

The camera on your phone right now is more powerful than the cameras professional photographers used 15 years ago. National Geographic photos have been shot on iPhones. Movie scenes have been filmed on Samsung Galaxys. The camera isn't the thing holding you back — it's knowing how to USE it. And that's exactly what this guide teaches.

People will pay real money for someone who can make their pet look adorable, their family look happy, their backyard party look magical, or their small business look professional. That someone can be you — starting this week, with the phone you already own.

**\$0**

Profit margin

### 📢 You Don't Need an Expensive Camera

The internet is full of people who say you need a \$1,000 DSLR to start a photography business. They're wrong. Any smartphone made after 2018 takes photos that are absolutely good enough to charge money for. What matters is LIGHT, COMPOSITION, and CONNECTION with your subject. Those are free skills you can learn in a weekend. Gear upgrades come later — IF you even need them.

## 6 Photography Niches Perfect for Kid Photographers

### Pet Portraits

\$15-\$25 per session

Pet owners are OBSESSED with photos of their animals. Huge demand, fun to shoot.

### Family Mini Sessions

\$25-\$50 per session

15-20 min outdoor sessions at a park. Parents always want updated family photos.

### Event Photography

\$30-\$75 per event

Birthday parties, school events, sports games. Capture moments people want to remember.

### Product Photos for Businesses

\$10-\$25 per product

Local shops need photos for social media and websites. You can do this in your bedroom.

### Social Media Content

\$20-\$40 per batch

Small businesses need 5-10 photos per week for Instagram. Recurring income opportunity.

### Nature & Landscape Prints

\$5-\$15 per print

Beautiful photos sold as prints on Etsy or at craft fairs. Passive income from one photo.

### 👁️ Sneak Peek: From the Full Guide

"The 'Golden Hour' is your secret weapon. The hour after sunrise and the hour before sunset produce the most beautiful, warm, glowing light you'll ever photograph in. Shadows are soft, colors are rich, and skin looks amazing. Schedule outdoor sessions during these windows and your photos will look like they were taken by a professional with a \$3,000 camera. This one piece of timing knowledge is worth more than any equipment upgrade."

## The Full Startup Guide Covers:

- ✓ The 5 composition rules that instantly make any photo look professional
- ✓ Lighting secrets: Golden Hour, window light, and why cloudy days are actually perfect
- ✓ How to direct subjects: getting natural smiles, relaxed poses, and genuine expressions

**Parents:** The full guide covers safety for photo sessions including working in public spaces with parental knowledge, never sharing location data in photo metadata, and appropriate guidelines for photographing other people's children (always with explicit parental permission). Product photography and nature/landscape work can be done independently at home. For family portrait sessions and events, a parent should be present or aware of the session location and duration.
